Opuntia clavarioides

Botanic Garden
Paris April 12th 1869

Always without spines, clavate, when grown
in the soil, always cristate, when grafted;
In the soil it forms tuberous roots, just
like Cereus tuberosus does,

Berlin 17 Jan 1869

Opuntia Verschaffeltii Cels

Ex Hort Cels, Paris

No spines — wool white, as long as fine bristles; These barbed as usual, so that there is no doubt as to Genus.

Cylindr plant 5/10 arrangt
